As always we try to ensure that you are not playing teams from your own league in pool play. None of the teams from your pool last year is in your pool this year. We balanced the strength of the teams in each pool based on your W-L record this season and your results in last year's tournament.

Winner of coin toss gets choice of home or away in pool games. Home team offers a prayer before the game.
The team in parentheses is responsible to supply a base umpire. The tournament supplies plate umpires for all games.
In pool C, you will play each of the other teams in the pool for your first three games. The sequence of six games starts at 8:30am.

| Saturday | 8:30am | $9: 30 \mathrm{am}$ | $10: 30 \mathrm{am}$ | $11: 30 \mathrm{am}$ | $12: 30 \mathrm{pm}$ | $1: 30 \mathrm{pm}$ |

At the end of C pool play, determine your ranking within your pool using the seeding criteria (Win-Loss record, then head-to-head, then run differential) in the Rules document to determine teams $\mathrm{C} \# 1, \mathrm{C} \# 2, \mathrm{C} \# 3$, and $\mathrm{C} \# 4$.

In pools A and B your first two games are with the other two teams in your pool. Based on those games, the teams are ranked as A1, A2, A3 and B1, B2, B3. (Run differentials will be needed if there is a three-way tie in either pool.) Additional pool games are then played among the six A and B pool teams to determine four teams that advance to the playoff bracket (designated as $\mathrm{AB} \# 1, \mathrm{AB} \# 2, \mathrm{AB} \# 3, \mathrm{AB} \# 4$ ) and two that are eliminated. (Note: the two eliminated teams will have played four games in the pool play.)

| Saturday | 9am | 10am | 11am | 12 pm | 1 pm | 2 pm |

The 2pm IF game depends on the results from earlier games, as follows. Consider teams A2, A3, B2, B3 as a minipool. If at the end of the 1 pm game any of those minipool teams has defeated all of the other teams in the mini-pool, then they advance to the IF game and face the loser of the $A 1, B 1$ matchup to decide the ordering for $A B \# 2$ and $A B \# 3$. If no minipool team is $3-0$ within the minipool after 1 pm , then the IF game is not played.

At the end of pool play, all matchups within the minipool have been played. If the records are 3-0, 2-1, 1-2, 0-3 then the 30 team goes to the IF game and the 2-1 team is $\mathrm{AB} \# 4$. If the records are 3-0, 1-2, 1-2, 1-2 then the IF game is played and run differential (of games within the minipool) is used to select $\mathrm{AB} \# 4$ from among the three 1-2 teams. If the records are 2-1, 2-1, 1-2, 1-2, then the two 2-1 teams become $A B \# 3$ and $A B \# 4$, ordered by their head-to-head matchup. If the records are 2-1, 2-1, 2-1, 0-3, then run differential (of minipool games) is used to select $A B \# 3$ and $A B \# 4$ among the three 2-1 teams.

All teams from pool C and the top four teams from the combined AB pool go to the single elimination playoff.
The entire playoff bracket is played on the two Armstrong fields. In the first round, the fourth-place teams play the third-place teams. As soon as you know you are in third or fourth place in your pool, go to the correct field so you are ready to play at $3: 30$.

In the second round of the playoff, the second-place pool teams play the winners from the first round as shown in the bracket. Second-place teams, as soon as you know you are \#2 in your pool, consult the bracket below to see which field you play on at 4:30. Send one of your players to that field to act as a base umpire for the 3:30 game.

The third round matches the first-place pool teams against the winners from the second round followed by the championship game.

Teams are asked to supply base umpires during the playoff as follows: For the 3:30 and 4:30 games, the team scheduled to play the next game on the field is responsible to supply a base umpire. (For example, team A\#1 umpires the 4:30 game at Armstrong 1.) The tournament will supply two umpires for the last three games.
